Evidence That Warships Were Needed in Cuban Waters.

THE VOLUNTEER'S CONSPIRACY

It Was Their Intention to Drive United States Representatives From the Island or Assassinate Them—Editor White on the Plan of the Monetary Commission.

WASHINGTON, Feb. 7.—The sending of American warships to Cuba was timely says a Globe-Democrat special. Direct evidence of this comes in the latest mail from Havana. Officers of the Spanish volunteers recently conspired to kill or drive from the island the most objectionable, to them, of the representatives of this government. They hoped to expel by intimidation. Failing in that, they proposed assassination.

Early in the war the letters to and from American consuls were opened in the postoffices and the contents read. Vigorous protests put a stop to this for a time. Recently the practice has been revived. In the past month the mail matter of the consuls has been almost daily tampered with. In this way the Spaniards have come into possession of the information which the consuls have been sending to the United States. Some of the letters contained statements more horrible than those made by the newspaper correspondents.

The volunteers were inflamed by the knowledge of what the consuls were telling. They determined to get rid of the consuls. Whether they would have had the nerve to carry out the plotting is questionable. The arrivals of the warships have certainly removed a possible danger. In one case it is known that the conspiracy was betrayed to the representative of the United States by a Spaniard to whom the American had shown some favor. This Spaniard brought the information of the plot and warned the consular representative to be on his guard. The American's reply was:

"I beg you to say to the volunteers that the flag which flies over the consulate I shot at for four years, but now, and whenever necessary, I will defend it at the cost of my life. Adios!"

This occurred not a week before the arrival of an American warship.

APPROVES THE REPORT.

Editor White's Views on the Monetary Commission's Plan.

WASHINGTON, Feb. 7.—Horace White, the editor of the New York Evening Post, in a letter to the secretary of the monetary commission has this to say of the commission's report:

"I heartily approve the report of the monetary commission. While I might prefer slight changes here and there, the general principles advanced by the report are, in my judgment, correct and their enactment necessary to the prosperity of all classes.

I consider the report most timely in a political sense also, because the country cannot stand still. Either the right thing or the wrong thing will be done. Stagnation would be suicide. From the close of the war until the present time the currency question has been the uppermost one in politics. We have been moving one way or the other all the time—never standing still. To stop now would be to rest in a fool's paradise."

PRESIDENT DOLE.

WASHINGTON, Feb. 7.—President Dole and his party ceased to be the guests of the nation last night when he started for Buffalo and thus began his journey for the Hawaiian islands.

CANADIAN MOUNTED POLICE.

Under Orders to Go to the Yukon on a Moment's Notice.

BUTTE, Mon., Feb. 7.—Information received from Lethbridge, on the Canadian boundary, is to the effect that great excitement has been caused there by orders received from the Dominion government that every man of the mounted police holds himself in readiness to proceed to the Yukon at a moment's notice for temporary duty.

The orders, which were received by wire by the officers in command of the division, are said to be due to the existence of serious trouble between the Canadian and United States authorities in Alaska relative to the attempt by the Americans to get provisions into the Yukon free of duty, ostensibly for the relief of the distress, but in reality for sale to the highest bidder.

SWEEPING CHANGES.

Management of an Industrial School For Incurables Not Satisfactory.

DENVER, Feb. 7.—A sweeping change was made today in the management of the State Industrial School for Girls, Captain Robert G. Smithers being placed in charge as superintendent, with his wife as matron, on the recommendation of the state board of charities and corrections. Their investigation made it plain that the old management utterly failed to control the incorrigible inmates, although it had employed such drastic measures as locking them in dark dungeons, dosing them with cold water, putting them on bread and water diet and stringing them to the wall with their hands behind them. These methods of discipline will now be dropped.

GLADSTONE GOES TO CHURCH.

CANBERRA, Feb. 7.—Mr. Gladstone, accompanied by Mrs. Gladstone, drove to church yesterday and received communion. He was able to walk without

BALDWIN-BAKER SUIT.

Answer in the Case to Test the Bland-Alison Act.

DETROIT, Feb. 7.—Fred A. Baker, a prominent attorney of Detroit, has filed an answer to a suit brought against him in the Oakland county circuit court involving the constitutionality of the Bland-Alison act and other laws pertaining to silver as a legal tender.

Stephen Baldwin bought a farm upon which Mr. Baker held a mortgage that became due to the amount of \$364, including interest. Mr. Baldwin tendered Mr. Baker \$364 silver dollars and asked for the cancellation of the mortgage. Mr. Baker refused to surrender the mortgage for the 364 silver dollars, but agreed to cancel it if he received enough silver dollars to equal at the present bullion value of silver, 364 gold dollars. This condition was declined by Mr. Baker, and he filed a suit in equity asking for a decree commanding Mr. Baker to cancel the mortgage in view of the tender made.

In his answer Mr. Baker submits that under the power "to coin money, regulate the value thereof and of foreign coins and fix the standard of weights and measures," the congress of the United States has no more authority or power, as far as pre-existing contracts for the payment of money are concerned, to diminish or increase the number of grains of pure gold or pure silver in the dollar in which a contract has been lawfully expressed, than it has as to pre-existing contracts to change the number of grains in an ounce, or the number of ounces in a pound, or the number of inches in a foot, or feet in a yard, or to change any other standard of weights or measures. Several of the leading attorneys of Detroit are interested in the case.

ACTOR IN A PULPIT.

James A. Herne Delivers a Eulogy on the Late Henry George.

CHICAGO, Feb. 7.—James A. Herne stepped from the stage to the pulpit yesterday to deliver a eulogy on Henry George, who was his personal friend in the Church of the Redeemer. Every seat was filled while the actor made an attack on the private ownership of land and enunciated doctrines that seemed strangely out of keeping with his fashionable audience.

After speaking of his personal association with Mr. George and the heroics of his life and death the speaker devoted himself to the principles of the single tax advocate.

AUSTRALIAN GOLD.

Shipments This Season the Largest Ever Received From That Source.

SAN FRANCISCO, Feb. 7.—The steamship Mariposa, from Sydney, Australia, due here Feb. 10, is reported to have on board nearly \$500,000 Australian gold, consigned to the Anglo-Californian bank of this city. Added to the former receipts, this will bring the total shipments of gold from that source for the season up to \$13,000,000, by far the largest amount ever received in California from Australia during any one year in settling the balance of trade in favor of this country.

HOTEL BURNED.

The Highland Park at Aiken, S. C., Destroyed by Fire.

AIKEN, S. C., Feb. 7.—The Highland Park hotel at this place was destroyed by fire yesterday. The loss is \$140,000 with \$98,000 insurance. One hundred and six guests were in the building, but they had no trouble in getting away with their baggage. The Highland Park hotel was one of the best known of the southern winter resorts.

\$125,000 FIRE.

SAVANNAH, Feb. 7.—Savannah's epidemic of fire continues. Last night damage to the extent of \$125,000 was caused by a conflagration which started in a hay warehouse on the wharf at the foot of Jefferson street. The fire started in the hay in the warehouse and had burst into a large bright conflagration by the time the alarm was turned in. The fire communicated itself to several brick buildings on Bay street and three of them were entirely gutted.

Eighty Carloads of Sugar.

SAN FRANCISCO, Feb. 7.—Hitherto the sugar crop from Hawaii has been shipped on sailing vessels around the Horn to New York city, but recently an arrangement has been made with the Southern Pacific company whereby this plan has been changed. The sugar will now be brought in the vessels to this port and shipped to New York by rail. There were 80 loads yesterday at Long wharf, Oakland awaiting shipment.

WIRE NOTES.

Premature explosion at a mine in Wheelock, Ala., caused the death of two men. Dr. Friedrich Nansen, the Arctic explorer, has arrived in London from the United States.

A call has been issued for a united labor reform convention at St. Louis on Monday, May 2, 1898.

The transforming house of the Power and Light company at Montreal was burned. Loss, \$100,000.

The Laconia (N. H.) knittingmill, which have been closed down for several months, have resumed operations and 200 operatives are employed.

A dispatch says the American Patriotic league, known as the Iron Brotherhood in Colorado and New Mexico, has been broken up by the authorities.

The Pennsylvania Academy of Fine Arts has awarded the Walter Lippincott prize of \$300 to James Jebus Shannon for his oil painting, entitled "Babes in the Woods."

West Virginia miners and operatives are severing all connections with the United Mine Workers' union and are organizing independently. More than 5,000 miners and 80 operators have already signed the movement.

FIGHTING IN GREECE

Turkish Troops Occupy and Burn Four Villages.

SAGATA'S REPLY TO WOODFORD

Spain Can't Entertain the Suggestion of Fixing a Date For Pacification in Cuba—France's Claims in the Soudan—Dealers Condemn the Exclusion of American Fruits.

ATHENS, Feb. 7.—Sanguinary conflicts continue between the Turkish troops and the peasants in Thessaly. It is reported that the Turks have occupied several villages and that 100 persons have been killed.

The Athens correspondent of The Times says: "The Turks, after severe fighting, have occupied and burned four villages in the Agrafa district, in the north of Acarnania, about midway between Arta and Domoko. Eight thousand Turkish troops were engaged in the conflicts."

"It is reported that in the neighborhood of Palaekastron the Turks were repulsed. A panic prevails among the inhabitants of the neutral zone. The Greek outposts have been strengthened and the situation is ominous. It is probable that the Cretan question will be dropped until the evacuation of Thessaly has been secured."

AUTONOMIST CABINET.

Report of a Disagreement Among the Members Denied.

HAVANA, Feb. 7.—Senor Jose Maria Galvez, president of the autonomist cabinet, says there is no disagreement among its members, nor anything in the nature of a crisis, as has been reported. On the contrary, all the ministers understand their programme and mission, which he sums up as "to establish the new regime, to prepare for the elections and to constitute a chamber of deputies."

Under no conditions, declares Senor Galvez, is it the mission of members of the cabinet to address the insurgents officially or to negotiate for peace, unless they should have a guarantee as to the outcome of their efforts. Nevertheless, the members of the cabinet, in their unofficial capacity, will do all in their power to smooth the pathway and will contribute to all private efforts to bring about a favorable issue.

REPLIES TO WOODFORD.

Spain Can't Fix the Date For Pacification of Cuba.

LONDON, Feb. 7.—The Madrid correspondent of the Standard says: "Senor Sagasta's response to the official note presented Saturday by General Woodford, the United States minister, complains of filibustering expeditions and declares that Spain cannot entertain the suggestion for fixing a date for her completion of the pacification of Cuba."

"Pessimist impressions are now current regarding the relations between Spain and the United States, and have depressed the Madrid and Barcelona bourses. Public feeling among all classes is strong against America."

France's Claims in the Soudan.

LONDON, Feb. 7.—The Times referring this morning to the claim of France to an outlet on the navigable part of the Niger for the Soudan and Dahomey establishments, says: "France has no right whatever to such an outlet and a pretension to obtain it at England's expense is a proposal which could only be accepted on the hypothesis that Great Britain had lost the power to defend her legitimate possessions."

Condemned the Exclusion of Our Fruit.

BERLIN, Feb. 7.—At a largely attended meeting of the Society of Fruit Dealers the speakers unanimously condemned the exclusion of American fruit on the ground that it would cause a rise in the price of all fruit. A resolution embodying this conclusion was adopted and will be sent to the bundestag.

SUIT OVER A WILL.

Nephews and Nieces Trying to Break an Uncle's Will.

LAGRANGE, Ky., Feb. 7.—An unusually interesting suit has been filed in court here. It is an appeal from the decision of the probate court over the will of the late Jesse Potts. Mr. Potts left an estate valued at \$75,000, which he gave to his wife. He left no children, but about 25 nephews and nieces are now attacking his will. Mr. Potts was married twice. His first wife died 12 years ago, leaving no living children. He afterward married Mrs. Lizzie Fisher, a young widow.

During his last marriage Mr. Potts made three wills, all of which, according to the beneficiary's attorneys, disposed of his estate in the same manner. Undue influence on the part of the wife is the ground of contest.

STORY OF BEN HARRISON.

Acted the Part of Hostler in His Boyhood Days.

CANAL DOVER, O., Feb. 7.—The death of John M. Black, who lived between here and Uhrichville, recalls an incident told with great pride by Mr. Black in life. The latter when a young man did considerable horseback riding in the southern part of the state. One night he stopped at a house on the Ohio river and asked the man if he would ferry him across the river. The ferryman said that the water was high, and in the darkness it would not be safe. He invited Mr. Black to remain all night in his home. Turning to his son, the host said: "Here Ben, take care of this gentleman's horse." The hostler was Benjamin Harrison, who afterward became president of the United States.

ORTHODOXY OR HETERODOXY.

Congressman King of Utah Challenges the Former and Calls It the Latter.

NEW YORK, Feb. 7.—Mormonism has challenged the orthodoxy of the day and called it heterodoxy. This was the message to the old Christian church and was thrown down by Congressman King of Utah at the conference of the Mormons of the eastern mission in Brooklyn. Much explanation of the revival of the eastern mission was made during the two sessions, but through all of them ran the spirit of the conquest.

There were no apologies for the Mormonism of the past. On the contrary, the spirit was one of aggressive championship of the Mormon theology. Representative King fervently declared that he knew the mission had been given to the Mormon leaders to prepare the way for the second coming of Christ and Kingdom of God.

"Mormonism is a challenge which meets you on the roadway of life and compels you to give the watchword of true Christianity. It compels you to say whether you are really with God or not. It challenges the orthodoxy of the day and calls it heterodoxy."

"Mormonism has come to make the whole world one nation, one people and one faith: It has not come to destroy. It has come to unite and show God's will as it really exists."

Characteristic Mormon hymns were sung during the services by members of the Tabernacle choir of Salt Lake City. Apostle Lehar, who has come from the Mormon capital to preach to the eastern people made an address in the evening.

BABY WITH TWO HEADS.

The Child Is Well Developed in Body and Limbs.

CINCINNATI, Feb. 7.—The first born child of Mr. and Mrs. Henry Ulmer of 745 Hopkins street is a boy with two heads. It was 13 days old today, and although it has taken no nourishment in that time it is still alive. The babe is well formed in body and limbs, but has two heads upon such a short neck that they seem to set on the child's shoulders. The normal head is of size proportionate with the child's body. The other is abnormally large and turned to one side, so that the centerline of the face is above the babe's left shoulder. Each head is complete in every detail. The boy can see from the eyes of either. The vocal organs in the short neck seem to be paralyzed, for not a sound has been heard from the lips of either head of the prodigy. The organs of hearing, sight, smell and taste seem to be perfect in both heads. A number of doctors have called at the Ulmer home to see the baby, and regard it as one of the most remarkable freaks of nature on record. The mother said that when she tried to feed the child yesterday morning it jerked away, and she could not get food down its throat. It is strong and muscular for its size and age.

MORGAN M'SWENEY.

Alleged Murder Is Returned to Marietta From Cattlesburg.

MARIETTA, O., Feb. 7.—Marshal J. H. Dye arrived here Saturday with Morgan McSweeney, the murderer of Deputy United States Marshal W. E. Mason, and landed his noted prisoner in the custody of Sheriff McCallister in the county jail. The trip from Cattlesburg, Ky., was made without incident, except for the large crowds which met the train at different places, anxious to get a look at McSweeney.

In Marietta there were great excitement, and at least 3,000 people were out to see the fugitive and his captor. After McSweeney was jailed the hundreds who crowded through the doors to get a glimpse of him completely blocked business, and the sheriff was compelled to close all the outside entrances. McSweeney was very nervous, evidently fearing trouble. He refused positively to talk of the crime of which he is accused.

Putting the baby to bed the good-night joy of a happy day to a healthy mother. Many mothers delegate this duty to a nurse. Some mothers hardly see their baby the live-long day. This is not because they are without mother-love or the natural impulses of a womanly woman. It is because of their own ill-health and broken nerves and because baby is also sickly and peevish. A woman should at all times keep these important organs well and strong. Her own health and that of her child depend upon it.

The best medicine for prospective mothers is Dr. Pierce's Favorite Prescription. It makes healthy and strong the organs that bear the burdens of maternity. It cures all disease and weakness. It makes comfortable the period preceding motherhood and renders the advent of baby easy and nearly painless. It insures a healthy child, the pains and suffering that women endure, as a result of weakness of the distinctly womanly organism, vanish under its use. All good druggists sell it. There is nothing else "just as good."

"I want to tell you," writes Mrs. N. A. Thomas, of 200 Polaski Street, Little Rock, Ark., "that my daughter, Mrs. Lawrence, who lives in Texas, Ark., had been under the doctor's care for four years. I lately sent her word to try the medicine which cured me, Dr. Pierce's Favorite Prescription, and I have just heard that it has done her more good than all the doctors."

"The People's Common Sense Adviser" explains symptoms of ailments common to every family, and suggests remedies. It has several chapters on women's diseases and weaknesses. An edition in heavy paper covers will be distributed absolutely free. Send the World's Dispensary Medical Association, Buffalo, N. Y., 21 cent-cent stamp, to pay the cost of mailing only. Cloth binding may be had for 50 cents—25 cents in advance.

BAD FIRE AT ALBANY

Seven Firms and Two Secret Societies Burned Out.

REMARKABLE CURE BY PRAYER

Found Dead in His Cabin—Harding Duncan Dying Because of His Misfortunes in a Love Affair—Measles and Whooping Cough—Like the Marriage Ceremony.

ALBANY, Ind., Feb. 7.—This city suffered severely from fire early yesterday. The fire started in the cellar of a clothing store and before it was discovered the building was nearly enveloped in flames. The Odd Fellows occupied the top floor and lost everything, besides seven firms and the Masonic lodge were burned out. The stock of the Hub clothing store was carried from the building and it is said half of it was stolen. An unknown tramp was assisting at the fire, when struck with a falling brick, and it is believed he cannot live. The loss is \$50,000.

REMARKABLE CURE.

Injured Man Becomes Converted and Is Healed by Prayer.

NEWCASTLE, Ind., Feb. 7.—For several weeks a revival meeting has been in progress at a country church near this city, and some remarkable scenes have transpired. At the beginning of the meeting Alex Davis, a middle aged citizen of that neighborhood, became converted. He had suffered for years from a large running sore on one leg, and could not walk without the aid of crutches. When he became converted he prayed that he might recover his health, and to the surprise of his neighbors the sore seemed to commence healing at once, and in a few days he was able to walk without the aid of crutches. The genuineness of the cure is testified to by dozens of citizens.

BOY'S TERRIBLE INJURY.

Arm Crushed and Side Torn Open by Machinery.

OSGOOD, Ind., Feb. 7.—Willie Wilke, a 12-year-old lad, has received injuries which will probably cost him his life. Between the flourmill and the engine house there is an iron shaft which connects the engine and machinery. The children have been in the habit of riding on this till it reached a certain height, and then jumping. He was engaged in this pastime when he probably got scared and couldn't jump. His arm is crushed and his side torn open for seven inches, showing the big blood vessels, and it is thought his recovery is impossible.

DEATH OF E. P. HUSTON.

Well Known Indianan Passes Away at Paris, Ills.

PARIS, Ills., Feb. 7.—E. P. Huston of Evansville, Ind., died yesterday afternoon at the residence of his father in this city of paralysis. Mr. Huston had been here several months in a physically helpless condition, but was mentally as alert as ever until a few hours before his death, which came at least unexpectedly. His brother, D. D. Huston, is a prominent citizen of Paris. The deceased was in his 46th year and unmarried. The remains will be interred here tomorrow.

Found Dead in His Cabin.

FRANCISCO, Ind., Feb. 7.—John Ivy, an old soldier of the Forty-ninth Indiana, was found dead in his cabin near here Saturday. Ivy was at Princeton Friday to sign his pension voucher, and was apparently in good health. How his death resulted is a mystery. His body lay across the bed and his face bore an expression which gave evidence that he died in great agony.

Measles and Whooping Cough.

COLUMBUS, Ind., Feb. 7.—Forty cases of measles have been reported at the Bartholomew County Orphans' home. In addition to this number there are a half dozen cases of whooping cough. The public schools in East Columbus have suspended on account of the epidemic. There are about 100 children in this one home.

Injustice to Mr. Yountz.

COLUMBIA CITY, Ind., Feb. 7.—The report published last week that M. D. Yountz, with other ex-officials of this county, was short in his accounts, does Mr. Yountz an injustice. The report does not show where Mr. Yountz ever received a penny other than that allowed by the commissioners.

Livery Stable and Residence Burned.

CORYDON, Ind., Feb. 7.—W. K. Lemon's livery stable and residence at this place were destroyed by fire Saturday. Loss, \$3,000; insurance, \$500. Fifteen horses were lost. The origin of the fire is unknown. Mr. Lemon is proprietor of the Corydon and New Albany stage line.

Grand Secretary Lane Resigns.

VINCENNES, Ind., Feb. 7.—Adolph S. Lane, after serving 14 years as grand secretary of the Knights and Ladies of Honor of Indiana, has resigned on account of ill-health. He recommended W. E. Wood of this city, as a capable man for the office.

Buried at Cambridge City.

CAMBRIDGE CITY, Ind., Feb. 7.—Harry Terhune, who died at Indianapolis Friday, was brought here for burial today. He entered the service of the American Express company at this place 80 years ago and was a pensioner of the company at the time of his death.

New Incorporations.

INDIANAPOLIS, Feb. 7.—E. Rauh & Sons of Indianapolis has been incorporated. Capital stock, \$50,000. The Knightstown Wire Fence company, with a capital of \$100, and the Wabash Athletic association, with a capital of \$25,000, were also incorporated.

DYING OF LOVE.

Harding Duncan of Osgood Breeding Over His Misfortune.

OSGOOD, Ind., Feb. 7.—It is not often in this prosaic 19th century men die of love, but such a case seems to be the case of Harding Duncan, who was to have been married to Mrs. Bradshaw two weeks ago. The marriage license was bought and published in the county papers two weeks ago, when the widow's relatives forbade the bans. The humiliation so preyed on Mr. Duncan's mind that he became ill, and his death is momentarily expected. He and the lady were sweethearts in their youth.

Like the Ceremony.

SULLIVAN, Ind., Feb. 7.—Martin V. Lucas and Lizzie Harris were married on Nov. 13 and went to housekeeping on Mrs. Harris' farm. On Jan. 19 she applied for a divorce, and it was granted the same day. Five days later they were married again. In the meantime Mrs. Lucas decided to Mr. Lucas. She had received through a former marriage.

Railroad Engineer

Testifies to Benefits Received From
Dr. Miles' Remedies.

There is no more responsible position on earth than that of a railroad engineer. On his steady nerves, clear brain, and perfect self command, depend the safety of the train and the lives of its passengers. Dr. Miles' Nervine and Dr. Miles' Liver Pills are especially adapted to keeping the nerves steady, the brain clear and the mental faculties unimpaired.

Engineer F. W. McCoy, formerly of 1233 Broadway, Council Bluffs, now residing at 311 Humboldt St., Denver, writes that he "suffered for years from constipation, causing sick, nervous and bilious headaches, and was fully restored to health by Dr. Miles' Nervine and Liver Pills. I heartily recommend Dr. Miles' Remedies."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle guaranteed or money refunded. Book on diseases of the heart and nerves free. Address:

Father Ryan.

No. American poet has given clearer proof of the possession of poetic genius of a rare order than Father Ryan. Certainly no poet has achieved a more enduring fame and secured a warmer place in the hearts of the people of the south than the "poet priest." He is distinctively known as the poet of the "lost cause"—as the bard whose harp sings so sweetly and so pathetically the requiem of a brave and a proud people over the grave wherein their hopes and aspirations have been buried by the mysterious dispensation of an almighty and all-wise Providence. This fact puts Father Ryan in a unique place, separated from any other American poet of his time. As to the high intrinsic literary value of the majority of his poems, of the genuineness of his poetic faculty and the excellence of his gift of song there can be no manner of doubt. —Al. Kabert.

ALL FOR REPUBLICAN PRIMARY.

The republicans of the city of Seymour, Indiana, will hold a primary election on Tuesday the 8th day of March. Polls will be opened at 8 o'clock p. m. and will close promptly at 8 o'clock p. m. There will be one voting place in each ward place to be designated later. The following officers will be voted for: Mayor, marshal, city clerk, city treasurer, city judge and one councilman from each ward of the city. All persons wishing to be candidates for any of the offices must notify the city chairman not later than the 1st day of March, 1898.

By order of the City Committee.

W. H. BUCKLEY, Chairman.

C. A. DAY, Secy.

RULES GOVERNING REPUBLICAN PRIMARY.

The respective voting places will be as follows:

1st Ward polls at the city building.

2nd Ward polls at Miller & Massman's office Opera House block.

3rd Ward Polls at Hanlon's shop on High street.

4th Ward polls at H. P. Miller's shop on Walnut street.

5th Ward polls at Kreuger's shoe shop.

Polls will be opened promptly at 1 o'clock p. m. and close promptly at 8 o'clock p. m.

The primary will be held under the Australian ballot law as amended, the voter using a pencil instead of a stamp to make his X designating the person he wishes to vote for. The tickets will contain the names of all the republican candidates for mayor, marshal, treasurer, clerk and city judge and also the names of all candidates for councilman in the respective wards.

The candidates receiving the greatest number of votes for the respective offices shall be declared the nominee of the party and be placed on the Republican ticket to be voted for at the City election, May 3, 1898.

Every candidate at the Primary thereby pledges himself to abide by the result and agrees to give all the nominees his hearty support.

W. H. BUCKLEY, Chairman.

C. A. DAY, Secretary.

Old Man Convicted of Bigamy.

STEVENSVILLE, O., Feb. 6.—D. Martin Ensign, a prominent resident of this county, has been convicted of bigamy. On trial he showed a letter from his son telling him his second wife was dead. The letter proved to be a forgery. He is 57 years old. He was remanded for sentence.

THIRTEEN MAY BE AN UNLUCKY NUMBER

nevertheless the thirteen members of republican state central committee will elect a first class chairman tomorrow.

One faithful democrat was heard to remark today that it seemed mighty queer that his party couldn't bring out candidates for city office who had not been turned down by the people. He argues that they are no stronger now than when they were candidates before.

PRESIDENT PARSONS, of the state normal, who is paid a good round salary by the taxpayers of Indiana, is finding time for a series of lectures in support of an educational trust in the state. He reported as saying in substance that the people will have to attend to their own business and let the making of this educational trust alone. Now just watch every body keep hands off!

POLITICAL BRIEVITIES.

Represent Overstreet has been chosen to represent Indiana on the republican congressional committee.

The Aurora Bulletin formally announces the candidacy of Wm. C. Walker for state treasurer. He is the present democratic treasurer of Dearborn county.

Nearly every man whom the local democratic bosses have on their slate for a place in the city government has met defeat before the people in some past political contest.

Dr. L. M. Mains, Sr., today announces his candidacy for mayor of the city of Seymour, subject to the republican primary. Dr. Mains has long been one of the influential residents of Seymour and has always been faithful to the interests of his home city. He is known in Seymour and in his ambition to serve the city as mayor he has the hearty support of a host of influential friends.

In another column in this issue appears the announcement of Don C. Hoover as a candidate for councilman from the Fourth ward. Mr. Hoover has been in business with his father, Judge A. H. Hoover, in Seymour for a number of years and therefore has a wide acquaintance. He is quite popular, is a hustler, and enters the race for councilman with the support and good wishes of many friends.

The newly elected members of the state central committee will meet at Indianapolis tomorrow to select a chairman to succeed Geo. F. McCullough. Among the candidates are E. H. Nebeker, of Covington, Nat U. Hill, of Bloomington, Warren Bilger, of Wabash, Charles Hanley, of Newcastle, G. W. Self, of Corydon, and Harry S. New. The latter is said not to be a candidate but would accept if chosen.

Rose to the Occasion.

The story of a young woman who wound up her letter to a friend with, "P. S.—I forgot to tell you I was married," is matched, says the London Telegraph, Miss Kate — of Belfast recently consented to adopt the name of a gentleman friend, and so they were married. She is in Dublin now and is stopping at the Gresham hotel. The other day she made some purchases, and in going home she said, "You may send them home for me—Miss Kate — Gresham hotel."

She had reached the sidewalk before she recollected that she had given her maiden name. With admirable wit she stopped back and said to the clerk, "Oh, by the way, send that package to Miss Kate — care of Mrs. — Gresham hotel," and she swept out of the store as if she had been married 15 years.

Swordswomen Abroad.

Some day it will be the women of foreign countries who will defend their nation's honor after the French-Italian style recently witnessed. Women of the upper classes in France and Spain are generally expert swordswomen. They are taught to fence as carefully and accurately as their brothers, and there are numerous schools in the two countries where young women are taught not only to fence, but to handle the broadsword.

In some of the Nevada canyons in severe weather the jack rabbits freeze to death, buddled together in clusters, vainly trying to get a little warmth out of one another. Then the Washoe and Pute Indian hunters break them off in bunches and broil the market with them.

Love.

"Tredde's an awful fool, ain't he?"

"He's in love, you know."

"What has that to do with his being a fool?"

"Don't you know the definition of love? Two souls with but a single thought, etc."

"Well?"

"That allows Tredde just half a thought, you see." —New York Sun.

DANGER IN A SHAKE.

A LEARNED DISQUISITION ON DIS-EASE TRANSFER.

Microbes of Every Kind Find Lodgment in the Skin—Contact Even of the Cleanly May Spread Contagion—Serious Results From Hand Claspings.

Is it possible for one man to communicate disease to another by the shaking of hands?

If this question be true, should the custom be abandoned or should it be modified under medical instruction so as to minimize the danger?

The existence of micro-organisms inimical to life and health has been established beyond dispute. Dr. Breiter founds his thesis, recently printed in The Medical Record, on this hypothesis. But his leading point, insisted upon with much force, is the danger which is hidden in the apparently harmless and sometimes pleasing custom of shaking hands. He says:

"That the surface of the human body is a very hotbed for the propagation of a great variety of micro-organisms, Fluoribacter, Mittman, Bizzozero, Magiora and Welch have elucidated most conclusively. It is certainly beyond the shadow of a doubt that in the presence of a predisposing factor and sometimes even without that the microbe diseases are ushered into existence by their individual prototypes, this being essentially brought about by contact in some way of the two contending forces. Modern surgery is founded on this principle. The carefulness with which we prepare our hands and surgical instruments before and after a surgical operation well exemplifies the importance of a familiarity with its dangers in every sense."

"We recognize that many of our microbe diseases, especially of the exanthematic type, eliminate their toxic element very largely through the medium of the skin, which undergoes extensive exfoliation, disseminating the poison far and wide. Isolation is resorted to and enforced most rigorously, thereby checking the spread of the disease, and then disinfectants lavishly used cause the destruction of the offending armies. In the era of scientific prophylaxis consequent upon the introduction of the microscope, bacteriology and antiseptics either developing in the outer world or in our hospital wards. Yet accidental inoculations of tuberculosis, smallpox and vaccinia, as well as more horrible diseases, still exist and are but demonstrations of either an unavoidable cause or a faulty observance of established data."

Dr. Breiter gives a thorough discussion as to what may be the result of contact of the hands. He declares that with men who are of cleanly habits, but who have acquired disease and such as they would wish to hide from their fellow men, the specific bacilli of this disease have been found in filth collected from the hand. He has found tubercle bacilli in the dirt taken from the hand of the man suffering from tuberculosis, the Klebs-Loeffler microbe among cases of suspected diphtheria and had no doubt that the specific germs of every microbe disease may and would be found in millions on the surfaces of the hands if proper experimentation were made. He proceeds as follows:

"Many victims of scarlet fever, both in the early and degenerative stages, especially the latter, are walking the streets of every large city ready to ingraft upon the moist hand of any chance acquaintance the prolific virus of the disease. The same may be said of persons with pulmonary tuberculosis, whose hands and handkerchiefs, through constant wiping of the mouth, are foul and saturated with the bacteria laden expectoration of the disease. Tuberculosis of the hand, the lesion large or small in area, often painless and unrecognized as such for a long while and perhaps untreated, is by no means an infrequent occurrence. Scabies, we know, has a marked predilection for the hand. Need I mention others? Now whether these conditions are the result of hand to hand contact or not does not matter. The conditions themselves are dangerous elements, and it is the consideration of such factors in the causation of disease that we are studying."

"Of course the mucous membrane serves as a better pathway for the invasion and development of micro organisms, but the skin is not absolutely negative in that respect, and if it were it would make little difference, as the two, skin and mucous membrane, are very often in close apposition with each other. We know that the hand has carried bacteria to the mouth, disseminating contagion in that way. Typhoid fever, Asiatic cholera, diphtheria and other diseases are known to have been produced that way. Why search through medical libraries for similar and perhaps more conclusive evidence? The subject has passed the stage of novelty. So while we professional people are by reason of our profession forced to invite and then to battle with these enemies, there is no reason why we should unnecessarily and under the cloak of custom invite them and then leave them to do their harm."

"Some may look upon this subject with derision. Nevertheless the truth is this: No matter how small the percentage of evil consequences arising from this universal handshaking, the total number, in view of its extensiveness, must necessarily be great. The subject is deserving of serious consideration. Conscientious physicians and surgeons will accord it."

Freddy's Fear.

They pass a plate of cakes to Freddy at dessert. He puts out his hand, hesitates, then draws it back and begins to weep.

"What are you crying for?" asks his mother.

"Because you are going to scold me when I choose the biggest one!" —Figgaro.

Inspecting State Institutions.

INDIANAPOLIS, Feb. 5.—Amos W. Butler, secretary of the board of state charities, is making a tour of the state institutions.

SINGULAR FIND.

German Silver Spoons Found in a Lump of Coal.

PADUCAH, Ky., Feb. 7.—Two spoons were found by Melville Sales and wife imbedded in some coal burning in their grate. Sales punched the fire and detected one spoon in a chunk of coal and quickly picked it out, and has exhibited the curiosity about the city. His wife became curious and punched the lump to pieces and found the second spoon. Both the spoons are German silver, and on the one exhibited is quite plainly to be seen "H. Sears & Co., German silver, 1850 or '60." The spoons show the effects of some wear. The coal from which the spoons were taken came from the mines at Cartersville, Ills.

EDUCATIONAL ASSOCIATION.

Preparation for the National Meet at Chattanooga—No Smallpox.

CHATTANOOGA, TENN., Feb. 7.—Elaborate preparations are being completed for the reception of superintendence of the department of superintendence of the National Educational association to meet in this city Feb. 23, 24 and 25. Sensational stories have been sent out about the existence of smallpox in this section. The president of the Chattanooga board of health has officially notified the press that there is not a case of smallpox in Chattanooga and that it has been effectively stamped out at the other cities where it has been prevailing to a slight extent.

Miss Bradley's Decision Indorsed.

LEXINGTON, Ky., Feb. 7.—Miss Christine Bradley's announced intention to christen the lathsketch Kentucky with water was indorsed by the executive committee of the State Women's Christian Temperance union here in resolutions unanimously passed. The resolutions recite that the local union in Lancaster, Miss Bradley's native place, will also indorse her action.

Sheriff Indicted For Neglect.

CARSON, Nev., Feb. 7.—Sheriff Brockliss of Douglas county, where the lynching of Adam Uber recently occurred, has been indicted for willful neglect of duty in not taking steps to prevent the illegal execution. His trial has been set for the 16th. A similar charge against the county commissioners was ignored.

Funeral of Hon. J. P. Smith.

URBANA, O., Feb. 7.—The funeral of the late Hon. J. P. Smith, director of the bureau of American Republics, will be held at his home here tomorrow afternoon. His friends, Dr. S. M. Musgrave, Captain William S. McGinnis and Hon. C. H. Hamlet accompanied Mrs. Smith from Miami, Fla., with the remains.

Accidentally Shot by Her Mother.

BRIDGEPORT, O., Feb. 7.—A 5-year-old daughter of Joseph Lamot received fatal injuries Saturday by the accidental discharge of a revolver in the hands of its mother, who is nearly crazed with grief.

FIENDISH RELATIVE.

Poisons His Brother and Sister and Witnesses Their Dying Struggles.

FAIRFIELD, Cal., Feb. 7.—Frank Belew, under arrest for the murder of his brother Louis and sister Susie in the little town of Dixon on Nov. 9 last, has confessed. He told how he placed rat poison in the teakettle used by his brother and sister, and when the news came to him that they were dying how he had gone to their home and witnessed the dying struggles of his sister without a pang of remorse.

Bruno Klein, an employee of Louis Belew, was also poisoned, but recovered after a severe illness. At the time of the poisoning a rejected suitor of Susie was suspected of the crime, but owing to lack of evidence was never arrested. Suspicion fell on Frank Belew, and the motive was thought to be money. Frank was finally arrested and in his confession declared his only motive for the crime was revenge on his brother and sister for having repeatedly slandered his wife.

PANIC AT A FUNERAL.

Steps Leading to an Auditorium Break Down.

LEXINGTON, Ky., Feb. 7.—Several thousand negroes congregated at the Auditorium yesterday where the funeral of the negro Baptist preacher, Sanford J. Howard, was to be preached. The wooden steps to the Auditorium, laden with three score women, broke down. Four women suffered broken legs and many others were more or less severely bruised. A panic ensued and the funeral was preached in a little church. During the panic the Broadway Protestant Episcopal church caught fire and half an hour later the Centenary Methodist church was on fire. Both fires were quickly extinguished.

Weather.

Indiana—Threatening weather, with light rain in extreme northern portions; warmer.

An Escaloped Fish.

An escaloped fish which Miss Parlova gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pint of cooked fish, free from bones and skin, a teaspoonful of egg, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1½ gills of milk (2½ a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory. —New York Post.

The word "one" or its equivalent in sound exists in all languages, and in every one is expressive of disgust. In the Icelandic word "pful" means putridity.

The proverb "Necessity is the mother of invention" can hardly be traced to one independent source. The idea was expressed by Porcius, the Roman satirist about 60 A. D., and is found, in the precise form now quoted, in Richard Francis's "Northern Memoirs" (printed in London, 1694), and in various later English writers.

Death of F. H. Clark.

We are called upon to announce the death of Frank A. Clark, which took place at the Central Insane Hospital at Indianapolis, at 11 o'clock Saturday night, February 5, 1898, with softening of the brain in the forty ninth year of his age. He was born at New Haven Ct., March 24, 1849. He came to Seymour in November 1874, and began working with the O. & M. and was a conductor from 1881, which position he continued to fill till 1895. November 25, 1879, he was united in marriage to Miss Ella Brown, daughter of D. H. Brown. In 1891 he moved to Washington, and in May, 1897, they removed to Seymour on account of him being attacked with his fatal trouble and was taken to a hospital at Cincinnati for treatment. Failing to find relief he came home. On January 3, 1898, he was taken to the Central Hospital at Indianapolis. There he failed to improve and gradually grew worse until death came to his relief. His brother-in-law, Emmons Brown, of Indianapolis took charge of the remains which he accompanied to this city and they were taken to the home of his father in law. After moving to Washington he opened a grocery store which he was unable to conduct on account of failing health. Mr. Clark was an honest and upright man, although not a church member he leaned toward the M. E. church. He leaves one brother, William Clark, of Washington, and his wife and one daughter, Miss Nellie, of Seymour, who have the profound sympathy of a large circle of friends. The funeral will take place tomorrow (Tuesday) afternoon, and will be in charge of the O. R. C. and K. of P. of which he was a member. Religious services will be conducted by Rev. C. E. Asbury, of the M. E. church, of Washington, in obedience to the request of deceased, assisted by Rev. J. M. Baxter. Friends of the family cordially invited. Burial in Riverview cemetery.

TERMS OF TRUSTEES.

The Law of 1897 Called in Question on Constitutional Grounds.

Throughout the state the question has arisen, "shall township trustees and assessors be elected at the next general election?"

This question is confronting the political organizations of the state and is being carefully looked into. It seems quite probable that the law passed by the last general assembly extending the terms of office of township trustees and assessors until after the general election in 1900 will be contested in the courts on constitutional grounds.

The constitution provides that the general assembly can not create an office the term of which shall be longer than four years, and many think that the act of 1897 conflicts with this provision of the constitution.

The 1800 trustees of the state will endeavor to have the law sustained.

Miss Ella Hemary, of Washington, accompanied her sister, Mrs. E. Champion, home here.

Charles Hatfield, of Worthington, spent Sunday with his aunt, Mrs. Ellen Francisco, and family.

Mayor Joseph Balesley came home Sunday from Illinois where he attended the funeral of a comrade.

Demp Wilson and wife were called Sunday to North Vernon by the dying condition of her niece, Mrs. John Schuling.

Card of Thanks.

To those who at the sacrifice of their own interests, and at the risk of their lives, so bravely and so nobly assisted in recovering the body of the late T. S. Cross, of Houston, Ind., who was drowned in Orange County, Ind., on Jan. 19, 1898. We, his wife, his mother, his brothers and sisters, wish publicly to express our high appreciation of the service rendered; and to those, who offered so many words of consolation and sympathy in our bereavement, and who so kindly assisted in the last sad rites, we desire to express our heartfelt and grateful thanks. As by your sympathy and kind offices you have lightened our burdens and enabled us to bear our great sorrow with some degree of fortitude. So in the time of trouble may you be blessed and your burdens shared by kind and loving friends.

The Modern Way

Commends itself to the well-informed to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

How to Economize.

Shoddy clothing is dear at any price. Just so with cheap pictures, it is just so much money thrown away. They are made by those who are not considered photographers, and even at the low prices they make them, they know they are getting more than the work is worth.

Rogers, on East 2nd street, Seymour, Ind., has every facility, both in instruments, and experience, for making good work at fair prices. Special care in making children's pictures, and family groups, also the finest large portraits either direct from life, or enlarged from small photos. All work guaranteed. 5j3:dl1w

The Way to Economize.
Is to go to Platter & Co., South Chestnut street and get ONE DOZEN cabinet photographs for ONE DOLLAR. Equal in styles, finish and durability, and made by the same process and using same materials as used by those photographers charging \$1.50 to \$2.00 per dozen for photos no better if as good.

CHURCH NOTES.

The house was crowded at the Christian church last night. Four additions interest is growing.

Presiding Elder E. A. Campbell conducted quarterly meeting in Brown county yesterday and today.

Y. M. W. C. A. held their regular session yesterday afternoon at the Christian church. Prof. Sanders delivered a most interesting address. Meeting at the same hour next Sunday afternoon. Come all.

The committee on program for the next district ministerial meeting to be held at North Vernon tomorrow consists of Rev. J. M. Baxter, J. W. Johnson, W. B. Grimes and Presiding Elder E. A. Campbell. The meeting will be an important one.

Yesterday was a grand day at the Methodist church. Evangelist Read conducted five services. His sermon in the morning on "The Best Thing in the World," was a masterly effort. His entire congregation was moved with deep feeling and an after service followed in which the spirit's power was manifested in many hearts. The night congregation was immense. Hundreds were unable to gain admission. Seven were at the altar for prayers and confessed Christ. Thirty-one children in the Sunday school confessed Christ. Come every day and night this week.

"I always let a cold go as it comes one says; which means that he overworks the system in getting rid of a cold rather than assist it by using Dr. Bull's Cough Syrup.

In a recent letter from Washington, D. C., to an old friend, Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing). I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything." For sale by C. W. Milhous.

Deafness Cannot be Cured
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists 75c. Hall's Family Pills are the best.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five contents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged by the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

If you eat what you like, and digest it, you will surely be strong and healthy. But if you don't digest it, you might almost as well not eat, for what good can your food do you if it doesn't nourish you?

If you find that you can't digest it, there is a simple help for your stomach. It is Shaker Digestive Cordial, made by the Shakers of Mount Lebanon. It has never failed to cure the worst case of indigestion.

Strength and health come from the food you eat, after it has been digested and has gone into the blood.

The best tonic is digested food. The best aid to digestion, Shaker Digestive Cordial.

When you have acid eruptions, nausea, headache, wind, dizziness, offensive breath, or any other symptoms of dyspepsia, Shaker Digestive Cordial will cure you.

BROWNSTOWN GRAVEL ROADS.

A Taxpayer of that Township Speaks Plainly About them.

A resident of Brownstown township writes the REPUBLICAN that in all probability the gravel road election down there Saturday will result favorable to the construction of the roads. This he says will be done by the vote of the town Brownstown against the thoughtful taxpayers in the township. The residents of the town, he says, "think that these roads must be built to save the county seat, while two-thirds of the farmers consider the whole matter as a scheme and as a costly one to the and are therefore openly declaring for relocation as the safest way to lessen their burden some taxes which are now \$2.36 with another \$21,000 about to be voted on them."

Rosabel Morrison as the Spanish Gypsy—"Carmen."

The name of Rosabel Morrison is something to conjure with, as she is the daughter of Lewis Morrison of "Faust" fame, and has earned her right to appear in a stellar role by years of association with the traditions of the stage. Aside from her historic ability, nature has been more than kind to her srom a physical standpoint. She has youth and beauty, which are most excellent requisites for those who sue for public favor. Miss Morrison will appear at the Opera House Tuesday Feb. 8, in the romantic play of "Carmen." The play will be presented on the same elaborate scale of scenic prodigality that has always been a feature of a "Morrison" production.

A GEORGIA HEN COOP.

It Was Sure Proof Against the Inroads of Outsiders.

"There isn't a more faithful being on earth," said a Georgia business man to a reporter, "than one of our Georgia dorkies. Neither is there one more superstitious, nor yet again is there one who loves better the products of the hen coop. And Cartersville isn't any different from any one of a hundred southern towns. When I was down there some time ago, a customer of mine who had a fancy for chickens and who had always had more or less trouble in maintaining ownership of them told me he had a remedy and asked me to go around with him and see it. I wanted him to tell me what it was, but he insisted on my seeing it first, so I went along with him, and in a few minutes was standing in his back yard before what was to me the oddest chicken coop I ever saw. It was constructed of large timbers and there were a dozen places in its walls where a hand could be run in and everything cleaned out within reach. Then there was no fastening on the door, nor was there any kind of protection to the fowls. I couldn't understand how such an inviting snap could be of any use to the owner and said as much.

"The charm is in the timber," said he.

"No," said I.

"Fact, just the same," said he. "You don't see it on the outside and you don't know it, but the dorkies around here do, and they won't come within 100 yards of that coop if they can help it. I don't care how full of chickens it is. 'Cause why? It is built of the timbers of a gallows on which a man was hung about three months ago in another county. It cost me something extra to get it, but it has more than paid for itself since I have had it, and I am in the market now to buy all the secondhand scaffolds in Georgia. If you run across a sheriff any place with one for sale, let me know by next mail, won't you, please?"

"It was a true bill," concluded the traveling man, "for I saw a dorky tried on it, and he refused a big silver dollar to go down to the coop to get a chicken for breakfast."—Washington Star.

TEAS AND TEAS.

Things Once Used or Now Used as Substitutes For the Chinese Herb.

Of course every one knows that we drink a good deal that isn't tea when we drink a cup of tea. We drink—or are supposed to drink—some tea, some lead and some straw. But there are several "teas" that the drinkers know are not made of tea leaves and yet are not adulterated.

In Peru they drink mate, a tea made from the Ilex paraguensis, a species of holly. This is the only mate tea, but there is a Brazilian tea, gorgonha, called mate there; another tea used in Austria, called Brazilian tea, and several other so called mate teas are made from different varieties of the Ilex. In Labrador they make a tea from two species of ledum. Oswego tea was made from the scarlet monarda, and mountain tea from the dwarf evergreen, Gaultheria procumbens. Then clover tea and tansy tea and catnip tea and mint tea are used, though not as beverages.

In Sumatra they use coffee leaves to make tea out of, and the beverage is said to be very refreshing. In Mauritius the leaves of an orchid, Angrocum fragrans, are used. The Tongueuses have teas of their own, made of leaves, berries, barks and woods. The Abyssinians make tea out of the leaves of the Catha edulis. When a sentinel can't leave his post to get a cup of tea, he can chew a leaf or two of this plant, and he won't feel like going to sleep all night. In Tasmania there are said to be more than 200 substitutes for tea; in England they used to make a tea of sage, betony or rosemary and of raspberry leaves; in France they use black currant leaves and borage to make tea, and a century or so ago they gathered in English gardens and fields ash, elder and sloe leaves, and the leaves of white-thorn and blackthorn, out of which to make tea. So it is evident that there are teas and teas.—New York Sun.

America's Brevity.

A rich American, according to the following anecdote, related in Good Words by the Rev. Donald MacLeod, D. D., presented himself one day at the studio of Sir John Millais, and, without preamble, began at once to speak.

"Sir," he said, "I wish to take a present back to my wife. She says she would like to have my portrait painted by the very best artist in the country. I have been told that you are the man. When can I have a sitting?"

"I am at present very busy," said Millais.

"So am I," was the reply.

"But I am a very expensive artist."

"How much do you charge?"

A large price was named.

"Shall I go to you a check now?"

"Not at all," said Millais. "I merely mentioned it to prevent misunderstandings."

"How many sittings do you require?"

"Five or six at the least."

"If you can do it in fewer, so much the better, for I am a very busy man and my time is valuable."

Millais enjoyed the manner in which his own plea of being busy had been met and agreed to paint him.

Evidence That Warships Were Needed in Cuban Waters.

THE VOLUNTEER'S CONSPIRACY

It Was Their Intention to Drive United States Representatives From the Island or Assassinate Them—Editor White on the Plan of the Monetary Commission.

WASHINGTON, Feb. 7.—The sending of American warships to Cuba was timely says a Globe-Democrat special. Direct evidence of this comes in the latest mail from Havana. Officers of the Spanish volunteers recently conspired to kill or drive from the island the most objectionable, to them, of the representatives of this government. They hoped to expel by intimidation. Failing in that, they proposed assassination.

Early in the war the letters to and from American consuls were opened in the postoffices and the contents read. Vigorous protests put a stop to this for a time. Recently the practice has been revived. In the past month the mail matter of the consuls has been almost daily tampered with. In this way the Spaniards have come into possession of the information which the consuls have been sending to the United States. Some of the letters contained statements more horrible than those made by the newspaper correspondents.

The volunteers were inflamed by the knowledge of what the consuls were telling. They determined to get rid of the consuls. Whether they would have had the nerve to carry out the plotting is questionable. The arrival of the warships have certainly removed a possible danger. In one case it is known that the conspiracy was betrayed to the representative of the United States by a Spaniard to whom the American had shown some favor. This Spaniard brought the information of the plot and warned the consular representative to be on his guard. The American's reply was:

"I beg you to say to the volunteers that the flag which flies over the consulate I shot at for four years, but now, and whenever necessary, I will defend it at the cost of my life. Adios!"

This occurred not a week before the arrival of an American warship.

APPROVES THE REPORT.

Editor White's Views on the Monetary Commission's Plan.

WASHINGTON, Feb. 7.—Horace White, the editor of the New York Evening Post, in a letter to the secretary of the monetary commission has this to say of the commission's report:

"I heartily approve the report of the monetary commission. While I might prefer slight changes here and there, the general principles advanced by the report are, in my judgment correct and their enactment necessary to the prosperity of all classes.

I consider the report most timely in a political sense also, because the country cannot stand still. Either the right thing or the wrong thing will be done. Stagnation would be suicide. From the close of the war until the present time the currency question has been the uppermost one in politics. We have been moving one way or the other all the time—never standing still. To stop now would be to rest in a fool's paradise."

President Dole.

WASHINGTON, Feb. 7.—President Dole and his party ceased to be the guests of the nation last night when he started for Buffalo and thus began his journey for the Hawaiian Islands.

CANADIAN MOUNTED POLICE.

Under Orders to Go to the Yukon on a Moment's Notice.

BUTTE, Mont., Feb. 7.—Information received from Lethbridge, on the Canadian boundary, is to the effect that great excitement has been caused there by orders received from the Dominion government that every man of the mounted police holds himself in readiness to proceed to the Yukon at a moment's notice for temporary duty.

The orders, which were received by wire by the officers in command of the division, are said to be due to the existence of serious trouble between the Canadian and United States authorities in Alaska relative to the attempt by the Americans to get provisions into the Yukon free of duty, ostensibly for the relief of the distress, but in reality for sale to the highest bidder.

SWEEPING CHANGES.

Management of an Industrial School For Incurable Not Satisfactory.

DANVER, Feb. 7.—A sweeping change was made today in the management of the State Industrial School for Girls, Captain Robert G. Smithers being placed in charge as superintendent, with his wife as matron, on the recommendation of the state board of charities and corrections. Their investigation made it plain that the old management utterly failed to control the incorrigible inmates, although it had employed such drastic measures as locking them in dark dungeons, dosing them with cold water, putting them on bread and water diet and stringing them to the wall with their hands behind them. These methods of discipline will now be dropped.

Gladstone Goes to Church.

CANBERRA, Feb. 7.—Mr. Gladstone, accompanied by Mrs. Gladstone, drove to church yesterday and received considerable attention. He was able to walk without aid.

BALDWIN-BAKER SUIT.

Answer in the Case to Test the Bland-Allison Act.

DETROIT, Feb. 7.—Fred A. Baker, a prominent attorney of Detroit, has filed an answer to a suit brought against him in the Oakland county circuit court involving the constitutionality of the Bland-Allison act and other laws pertaining to silver as a legal tender.

Stephen Baldwin bought a farm upon which Mr. Baker held a mortgage that became due to the amount of \$364, including interest. Mr. Baldwin tendered Mr. Baker \$364 silver dollars and asked for the cancellation of the mortgage. Mr. Baker refused to surrender the mortgage for the 364 silver dollars, but agreed to cancel it if he received enough silver dollars to equal, at the present market value of silver, \$364 gold dollars. This condition was declined by Mr. Baker, and he filed a suit in equity asking for a decree commanding Mr. Baker to cancel the mortgage in view of the tender made.

In the answer Mr. Baker submits that under the power "to coin money, regulate the value thereof and of foreign coins and fix the standard of weights and measures," the congress of the United States has no more authority or power, as far as preexisting contracts for the payment of money are concerned, to diminish or increase the number of grains of pure gold or pure silver in the dollar in which a contract has been lawfully expressed, than it has as to preexisting contracts to change the number of grains in an ounce, or the number of ounces in a pound, or the number of inches in a foot, or feet in a yard, or to change any other standard of weights or measures. Several of the leading attorneys of Detroit are interested in the case.

ACTOR IN A PULPIT.

James A. Herne Delivers a Eulogy on the Late Henry George.

CHICAGO, Feb. 7.—James A. Herne stepped from the stage to the pulpit yesterday to deliver a eulogy on Henry George, who was his personal friend in the Church of the Redeemer. Every seat was filled while the actor made an attack on the private ownership of land and enunciated doctrines that seemed strangely out of keeping with his fashionable audience.

After speaking of his personal association with Mr. George and the hero's life and death the speaker devoted himself to the principles of the single tax advocate.

AUSTRALIAN GOLD.

Shipments This Season the Largest Ever Received From That Source.

SAN FRANCISCO, Feb. 7.—The steamship Mariposa, from Sydney, Australia, due here Feb. 10, is reported to have on board nearly \$500,000 Australian gold, consigned to the Anglo-Californian bank of this city. Added to the former receipts, this will bring the total shipments of gold from that source for the season up to \$13,000,000, by far the largest amount ever received in California from Australia during any one year in settling the balance of trade in favor of this country.

HOTEL BURNED.

The Highland Park at Aiken, S. C., Destroyed by Fire.

AIKEN, S. C., Feb. 7.—The Highland Park hotel at this place was destroyed by fire yesterday. The loss is \$140,000 with \$98,000 insurance. One hundred and six guests were in the building, but they had no trouble in getting away with their baggage. The Highland Park hotel was one of the best known of the southern winter resorts.

\$125,000 FIRE.

SAVANNAH, Feb. 7.—Savannah's epidemic of fire continues. Last night damage to the extent of \$125,000 was caused by a conflagration which started in a hay warehouse on the wharf at the foot of Jefferson street. The fire started in the hay in the warehouse and had burst into a large bright conflagration by the time the alarm was turned in. The fire communicated itself to several brick buildings on Bay street and three of them were entirely gutted.

Eighty Carloads of Sugar.

SAN FRANCISCO, Feb. 7.—Hitherto the sugar crop from Hawaii has been shipped on sailing vessels around the Horn to New York city, but recently an arrangement has been made with the Southern Pacific company whereby this plan has been changed. The sugar will now be brought in the vessels to this port and shipped to New York by rail. There were 80 loads yesterday at Long wharf, Oakland awaiting shipment.

WIRE NOTES.

Premature explosion at a mine in Wheelock, Ala., caused the death of two men. Dr. Friedrich Nansen, the Arctic explorer, has arrived in London from the United States.

A call has been issued for a united labor reform convention at St. Louis on Monday, May 2, 1898.

The transforming house of the Power and Light company at Montreal was burned. Loss, \$100,000.

The Laconia (N. H.) knitting mills, which have been closed down for several months, have resumed operations and 250 operatives are employed.

A dispatch says the American Patriotic league, known as the Iron Brotherhood in Colorado and New Mexico, has been broken up by the authorities.

The Pennsylvania Academy of Fine Arts has awarded the Walter Lippincott prize of \$800 to James Jebus Shannon for his oil painting, entitled "Babes in the Woods."

West Virginia miners and operatives are severing all connections with the United Mine Workers' union and are organizing independently. More than 8,000 miners and 80 operatives have already signed the movement.

FIGHTING IN GREECE

Turkish Troops Occupy and Burn Four Villages.

SAGATA'S REPLY TO WOODFORD

Spain Can't Entertain the Suggestion of Fixing a Date For Pacification in Cuba—France's Claims in the Sudan—Dealers Condemn the Exclusion of American Fruits.

ATHENS, Feb. 7.—Sanguinary conflicts continue between the Turkish troops and the peasants in Thessaly. It is reported that the Turks have occupied several villages and that 100 persons have been killed.

The Athens correspondent of The Times says: "The Turks, after severe fighting, have occupied and burned four villages in the Agrafa district, in the north of Acarnania, about midway between Arta and Domoko. Eight thousand Turkish troops were engaged in the conflicts."

"It is reported that in the neighborhood of Palaeokastron the Turks were repulsed. A panic prevails among the inhabitants of the neutral zone. The Greek outposts have been strengthened and the situation is ominous. It is probable that the Cretan question will be dropped until the evacuation of Thessaly has been secured."

AUTONOMIST CABINET.

Report of a Disagreement Among the Members Denied.

HAVANA, Feb. 7.—Senator Jose Maria Galvez, president of the autonomist cabinet, says there is no disagreement among its members, nor anything in the nature of a crisis, as has been reported. On the contrary, all the ministers understand their programme and mission, which he sums up is "to establish the new regime, to prepare for the elections and to constitute a chamber of deputies."

Under no conditions, declares Senator Galvez, is it the mission of members of the cabinet to address the insurgents officially or to negotiate for peace, unless they should have a guarantee as to the outcome of their efforts. Nevertheless, the members of the cabinet, in their official capacity, will do all in their power to smooth the pathway and will contribute to all private efforts to bring about a favorable issue.

REPLIES TO WOODFORD.

Spain Can't Fix the Date For Pacification of Cuba.

LONDON, Feb. 7.—The Madrid correspondent of the Standard says: "Senator Sagasta's response to the official note presented Saturday by General Woodford, the United States minister, complains of filibustering expeditions and declares that Spain cannot entertain the suggestion for fixing a date for her completion of the pacification of Cuba."

"Pessimist impressions are now current regarding the relations between Spain and the United States, and have depressed the Madrid and Barcelona bourses. Public feeling among all classes is strong against America."

France's Claims in the Sudan.

LONDON, Feb. 7.—The Times referring this morning to the claim of France to an outlet on the navigable part of the Niger for the Sudan and Dahomey establishments, says: "France has no right whatever to such an outlet and a pretension to obtain it at England's expense is a proposal which could only be accepted on the hypothesis that Great Britain had lost the power to defend her legitimate possessions."

Condemned the Exclusion of Our Fruit. BERLIN, Feb. 7.—At a largely attended meeting of the Society of Fruit Dealers the speakers unanimously condemned the exclusion of American fruit on the ground that it would cause a rise in the price of all fruit. A resolution embodying this sentiment was adopted and will be sent to the bundestag.

SUIT OVER A WILL.

Nephews and Nieces Trying to Break an Uncle's Will.

LAGRANGE, Ky., Feb. 7.—An unusually interesting suit has been filed in court here. It is an appeal from the decision of the probate court over the will of the late Jesse Potts. Mr. Potts left an estate valued at \$75,000, which he gave to his wife. He left no children, but about 25 nephews and nieces are now attacking his will. Mr. Potts was married twice. His first wife died 12 years ago, leaving no living children. He afterward married Mrs. Lizzie Fisher, a young widow.

During his last marriage Mr. Potts made three wills, all of which, according to the beneficiary's attorneys, disposed of his estate in the same manner. Undue influence on the part of the wife is the ground of contest.

STORY OF BEN HARRISON.

Acted the Part of Hostler in His Boyhood Days.

CANAL DOVER, O., Feb. 7.—The death of John M. Black, who lived between here and Uhrichsville, recalls an incident told with great pride by Mr. Black in life. The latter when a young man did considerable horseback riding in the southern part of the state. One night he stopped at a house on the Ohio river and asked the man if he would ferry him across the river. The ferryman said that the water was high, and in the darkness it would not be safe. He invited Mr. Black to remain all night in his home. Turning to his son, the host said: "Here Ben, take care of this gentleman's horse." The hostler was Benjamin Harrison, who afterward became president of the United States.

ORTHODOXY OR HETERODOXY.

Congressman King of Utah Challenges the Former and Calls it the Latter.

NEW YORK, Feb. 7.—Mormonism has challenged the orthodoxy of the day and called it heterodoxy. This was the message to the old Christian church and was thrown down by Congressman King of Utah at the conference of the Mormons of the eastern mission in Brooklyn. Much explanation of the revival of the eastern mission was made during the two sessions, but through all of them ran the spirit of the conquest.

There were no apologies for the Mormonism of the past. On the contrary, the spirit was one of aggressive championship of the Mormon theology. Representative King fervently declared that he knew the mission had been given to the Mormon leaders to prepare the way for the second coming of Christ and Kingdom of God.

"Mormonism is a challenge which meets you on the roadway of life and compels you to give the watchword of true Christianity. It compels you to say whether you are really with God or not. It challenges the orthodoxy of the day and calls it heterodoxy."

"Mormonism has come to make the whole world one nation, one people and one faith: It has not come to destroy. It has come to unite and show God's will as it really exists."

Characteristic Mormon hymns were sung during the services by members of the Tabernacle choir of Salt Lake City. Apostle Lyman, who has come from the Mormon capital to preach to the eastern people made an address in the evening.

BABY WITH TWO HEADS.

The Child is Well Developed in Body and Limbs.

CINCINNATI, Feb. 7.—The first born child of Mr. and Mrs. Henry Ulmer of 745 Hopkins street is a boy with two heads. It was 13 days old today, and although it has taken no nourishment in that time it is still alive. The babe is well formed in body and limbs, but has two heads upon such a short neck that they seem to set on the child's shoulders. The normal head is of size proportionate with the child's body.

The other is abnormally large and turned to one side, so that the contour of the face is above the babe's left shoulder. Each head is complete in every detail. The boy can see from the eyes of either. The vocal organs in the short neck seem to be paralyzed, for not a sound has been heard from the lips of either head of the prodigy. The organs of hearing, sight, smell and taste seem to be perfect in both heads. A number of doctors have called at the Ulmer home to see the baby and regard it as one of the most remarkable freaks of nature on record. The mother said that when she tried to feed the child yesterday morning it jerked away, and she could not get food down its throat. It is strong and muscular for its size and age.

MORGAN M'SWEENEY.

Alleged Murder is Returned to Marietta From Cattlesburg.

MARIETTA, O., Feb. 7.—Marshal J. H. Dye arrived here Saturday with Morgan McSweeney, the murderer of ex-Deputy United States Marshal W. E. Mason, and landed his noted prisoner in the custody of Sheriff McCallister in the county jail. The trip from Cattlesburg, Ky., was made without incident, except for the large crowds which met the train at different places, anxious to get a look at McSweeney.

In Marietta there was great excitement, and at least 8,000 people were out to see the fugitive and his captor. After McSweeney was jailed the hundreds who crowded through the doors to get a glimpse of him completely blocked business, and the sheriff was compelled to close all the outside entrances. McSweeney was very nervous, evidently fearing trouble. He refused positively to talk of the crime of which he is accused.

Putting the baby to bed is the good night joy of a happy mother.

Many mothers delegate this motherly duty to a nurse. Some mothers hardly see their baby the long day. This is not because they are without mother-love or the natural impulses of a womanly woman. It is because of their own ill-health and broken nerves, and because baby is also sickly and peevish.

This unfortunate state of affairs might have been avoided had the mother, during the period of expectant motherhood, taken the right care of the delicate organs that make maternity possible. A woman should always keep these important organs well and strong. Her own health and that of her child depend upon it.

The best medicine for prospective mothers is Dr. Pierce's Favorite Prescription. It makes healthy and strong the organs that bear the burdens of maternity. It cures all disease and weakness. It makes comfortable the period preceding motherhood and renders the advent of baby easy and nearly painless. It insures a healthy child. The pains and suffering that women endure, as a result of weakness of the distinctly womanly organs, vanish under its use. All good druggists sell it. There is nothing else "just as good."

"I want to tell you," writes Mrs. N. A. Thomas, of 606 Polaski Street, Little Rock, Ark., "that my daughter, Mrs. Lawrence, who lives in Texas, had been under the doctor's care for four years. I lately sent her to try the medicine which cured me, Dr. Pierce's Favorite Prescription, and I have just heard that it has done her more good than all the doctors."

"The People's Common Sense Adviser" explains symptoms of ailments common to every family, and suggests remedies. It has several chapters on women's diseases and weaknesses. An edition in heavy paper covers will be distributed absolutely free. Send the World's Dispensary Medical Association, Buffalo, N. Y., at once ten cents to pay the cost of mailing only. Cloth binding may be had for 50 cents.

BAD FIRE AT ALBANY

Seven Firms and Two Secret Societies Burned Out.

REMARKABLE CURE BY PRAYER

Found Dead in His Cabin—Harding Duncan Dying Because of His Misfortunes in a Love Affair—Measles and Whooping Cough—Like the Marriage Ceremony.

ALBANY, Ind., Feb. 7.—This city suffered severely from fire early yesterday. The fire started in the cellar of a clothing store and before it was discovered the building was nearly enveloped in flames. The Odd Fellows occupied the top floor and lost everything, besides seven firms and the Masonic lodge were burned out. The stock of the Hub clothing store was carried from the building and it is said half of it was stolen. An unknown tramp was assisting at the fire, when struck with a falling brick, and it is believed he cannot live. The loss is \$50,000.

REMARKABLE CURE.

Injured Man Becomes Converted and is Healed by Prayer.

NEWCASTLE, Ind., Feb. 7.—For several weeks a revival meeting has been in progress at a country church near this city, and some remarkable scenes have transpired. At the beginning of the meeting Alex Davis, a middle aged citizen of that neighborhood, became converted. He had suffered for years from a large running sore on one leg, and could not walk without the aid of crutches. When he became converted he prayed that he might recover his health, and to the surprise of his neighbors the sore seemed to commence healing at once, and in a few days he was able to walk without the aid of crutches. The genuineness of the cure is certified to by dozens of citizens.

BOY'S TERRIBLE INJURY.

Arm Crushed and Side Torn Open by Machinery.

OSGOOD, Ind., Feb. 7.—Willie Wilke, a 12-year-old lad, has received injuries which will probably cost him his life. Between the flouringmill and the engine house there is an iron shaft which connects the engine and machinery. The children have been in the habit of riding on this till it reached a certain height, and then jumping. He was engaged in this pastime when he probably got scared and couldn't jump. His arm is crushed and his side torn open for seven inches, showing the big blood vessels, and it is thought his recovery is impossible.

DEATH OF E. P. HUSTON.

Well Known Indianan Passes Away at Paris, Ills.

PARIS, Ills., Feb. 7.—E. P. Huston of Evansville, Ind., died yesterday afternoon at the residence of his father in this city of paralysis. Mr. Huston had been several months in a physically helpless condition, but was mentally as alert as ever until a few hours before his death, which came at least unexpectedly. His brother, D. D. Huston, is a prominent citizen of Paris. The deceased was in his 46th year and unmarried. The remains will be interred here tomorrow.

Found Dead in His Cabin.

FRANCISCO, Ind., Feb. 7.—John Ivy, an old soldier of the Forty-eighth Indiana, was found dead in his cabin near here Saturday. Ivy was at Princeton Friday to sign his pension voucher, and was apparently in good health. How his death resulted is a mystery. His body lay across the bed and his face bore an expression which gave evidence that he died in great agony.

Measles and Whooping Cough.

COLUMBUS, Ind., Feb. 7.—Forty cases of measles have been reported at the Bartholomew County Orphans' home. In addition to this number there are a half dozen cases of whooping cough. The public schools in East Columbus have suspended on account of the epidemic. There are about 100 children in this one home.

Injustice to Mr. Yountz.

COLUMBIA CITY, Ind., Feb. 7.—The report published last week that M. D. Yountz, with other ex-officials of this county, was shown in his accounts, does Mr. Yountz an injustice. The report does not show where Mr. Yountz ever received a penny other than that allowed by the commissioners.

Livery Stable and Residence Burned.

CORYDON, Ind., Feb. 7.—W. K. Lemon's livery stable and residence at this place were destroyed by fire Saturday. Loss, \$3,000; insurance, \$500. Fifteen horses were lost. The origin of the fire is unknown. Mr. Lemon is proprietor of the Corydon and New Albany stage line.

Grand Secretary Lane Resigns.

VINCENNES, Ind., Feb. 7.—Anolph S. Lane, after serving 14 years as grand secretary of the Knights and Ladies of Honor of Indiana, has resigned on account of ill-health. He recommended W. E. Wood of this city, as a capable man for the office.

Buried at Cambridge City.

CAMBRIDGE CITY, Ind., Feb. 7.—Harry Terhune, who died at Indianapolis Friday was brought here for burial today. He entered the service of the American Express company at this place 30 years ago and was a pensioner of the company at the time of his death.

New Incorporations.

INDIANAPOLIS, Feb. 7.—E. Raub & Sons of Indianapolis has been incorporated. Capital stock, \$50,000. The Knightstown Wire Fence company, with a capital of \$100, and the Wabash Athletic association, with a capital of \$25,000, were also incorporated.

THIRTEEN may be an unlucky number nevertheless the thirteen members of republican state central committee will elect a first class chairman tomorrow.

ONE faithful democrat was heard to remark today that it seemed mighty queer that his party couldn't bring out candidates for city office who had not been turned down by the people. He argues that they are no stronger now than when they were candidates before.

PRESIDENT Parsons, of the state normal, who is paid a good round salary by the taxpayers of Indiana, is finding time for a series of lectures in support of an educational trust in the state. He reported as saying in substance that the people will have to attend to their own business and let the making-up of this educational trust alone. Now just watch every body keep hands off!

POLITICAL BRIEVITIES.

Represent Overstreet has been chosen to represent Indiana on the republican congressional committee.

The Aurora Bulletin formally announces the candidacy of Wm. C. Walber for state treasurer. He is the present democratic treasurer of Dearborn county.

Nearly every man whom the local democratic bosses have on their slate for a place in the city government has met defeat before the people in some past political contest.

Dr. L. M. Mains, Sr., today announces his candidacy for mayor of the city of Seymour, subject to the republican primary. Dr. Mains has long been one of the influential residents of Seymour and has always been faithful to the interests of his home city. He is known to nearly every man, woman and child in Seymour and in his ambition to serve the city as mayor he has the hearty support of a host of influential friends.

In another column in this issue appears the announcement of Don C. Hoover as a candidate for councilman from the Fourth ward. Mr. Hoover has been in business with his father, Judge A. H. Hoover, in Seymour for a number of years and therefore has a wide acquaintance. He is quite popular, is a hustler, and enters the race for councilman with the support and good wishes of many friends.

The newly elected members of the state central committee will meet at Indianapolis tomorrow to select a chairman to succeed Geo. F. McCullough. Among the candidates are E. H. Nettek, of Covington, Nat U. Hill, of Bloomington, Warren Bilger, of Wabash, Charles Henley, of Newcastle, G. W. Self, of Corydon, and Harry S. New. The latter is said not to be a candidate but would accept if chosen.

Rose to the Occasion.

The story of a young woman who would up her letter to a friend with "P. S.—I forgot to tell you I was married," is matched, says the London Telegraph, Miss Kate—of Belfast recently consented to adopt the name of a gentleman friend, and so they were married. She is in Dublin now and is stopping at the Grosvenor hotel. The other day she made some purchases, and in going home she said, "You may send them home for me—Miss Kate Grosvenor hotel."

She had reached the sidewalk before she recollected that she had given her maiden name. With admirable wit she stopped back and said to the clerk, "Oh, by the way, send that package to Miss Kate—care of Mrs. Grosvenor hotel, and she swept out of the story as if she had been married 15 years.

Swordswomen Abroad.

Some day it will be the women of foreign countries who will defend their nation's honor after the French-Italian style recently witnessed. Women of the upper classes in France and Spain are generally expert swordswomen. They are taught to fence as carefully and accurately as their brothers, and there are numerous schools in the two countries where young women are taught not only to fence, but to handle the broadsword.

In some of the Nevada canyons in severe weather the jack rabbits freeze to death, huddled together in clusters, vainly trying to get a little warmth out of one another. Then the Washoe and Pinta Indian hunters break them off in bunches and flood the market with them.

Love.

"Treddie's an awful fool, ain't he?" "He's in love, you know." "What has that to do with his being a fool?" "Don't you know the definition of love? 'Two souls with but a single thought,' etc."

"Well?" "That allows Treddie just half a thought, you see."—New York Sun.

DANGER IN A SHAKE.

A LEARNED DISQUISITION ON DISEASE TRANSFER.

Microbes of Every Kind Find Lodgment in the Skin—Contact Even of the Cleanest May Spread Contagion—Serious Results From Hand Clapping.

Is it possible for one man to communicate disease to another by the shaking of hands? If this question be true, should the custom be abandoned or should it be modified under medical instruction as to minimize the danger?

The existence of micro-organisms inimical to life and health has been established beyond dispute. Dr. Breiter founds his thesis, recently printed in The Medical Record, on this hypothesis. But his leading point, insisted upon with much force, is the danger which is hidden in the apparently harmless and sometimes pleasing custom of shaking hands. He says:

"That the surface of the human body is a very hotbed for the propagation of a great variety of micro-organisms. Fungus, bacteria, Mites, Bizzozzo, Maggots and Welch have elucidated most conclusively. It is certainly beyond the shadow of a doubt that in the presence of a predisposing factor and sometimes even without that the micro-organisms are ushered into existence by their individual prototypes, this being essentially brought about by contact in some way of the two contending forces. Modern surgery is founded on this principle. The carefulness with which we prepare our hands and surgical instruments before and after a surgical operation well exemplifies the importance of a familiarity with its dangers in every sense."

"We recognize that many of our micro-organisms, especially of the exanthematic type, eliminate their toxic medium very largely through the medium of the skin, which undergoes extensive exfoliation, disseminating the poison far and wide. Isolation is resorted to and enforced most rigorously, thereby checking the spread of the disease, and then disinfectants lavishly used cause the destruction of the offending armies. In the era of scientific prophylaxis consequent upon the introduction of the microscope, bacteriology and antiseptics either developing in the outer world or in our hospital wards. Yet accidental inoculations of tuberculosis, smallpox and vaccinia, as well as more horrible diseases, still exist and are but demonstrations of either an unavoidable cause or a faulty observance of established data."

Dr. Breiter gives a thorough discussion as to what may be the result of contact of the hands. He declares that with men who are of cleanly habits, but who have acquired disease and such as they would wish to hide from their fellow men, the specific bacillus of this disease has been found in filth collected from the hand. He has found tubercle bacilli in the dirt taken from the hand of the man suffering from tuberculosis, the Klebs-Löffler microbe among cases of suspected diphtheria, and had no doubt that the specific germs of every microbe disease may and would be found in millions on the surfaces of the hands if proper experimentation were made. He proceeds as follows:

"Many victims of scarlet fever, both in the early and desquamative stages, especially the latter, are walking the streets of every large city ready to ingratiate upon the moist hand of any chance acquaintance the prolific virus of the disease. The same may be said of persons with pulmonary tuberculosis, whose hands and handkerchiefs, through constant wiping of the mouth, are foul and saturated with the bacteria laden expectoration of the disease. Tuberculosis of the hand, the lesion large or small in area, often painless and unrecognized as such for a long while and perhaps untreated, is by no means an infrequent occurrence. Scabies, we know, has a marked predilection for the hand. Need I mention others? Now whether these conditions are the result of hand to hand contact or not does not matter. The conditions themselves are dangerous elements, and it is the consideration of such factors in the causation of disease that we are studying."

"Of course that the mucous membrane serves as a better pabulum for the invasion and development of micro-organisms, but the skin is not absolutely negative in that respect, and if it were it would make little difference, as the two, skin and mucous membrane, are very often in close apposition with each other. We know that the hand has carried bacteria to the mouth, disseminating contagion in that way. Typhoid fever, Asiatic cholera, diphtheria and other diseases are known to have been produced that way. Why search through medical libraries for similar and perhaps more conclusive evidence? The subject has passed the stage of novelty. So while we professional people are by reason of our profession forced to invite and then to battle—for we have antiseptics with which we should unnecessarily and under the cloak of custom invite them and then leave them to do their harm."

"Some may look upon this subject with derision. Nevertheless the truth is this: No matter how small the percentage of evil consequences arising from this universal handshaking, the total number, in view of its extensiveness, must necessarily be great. The subject is deserving of serious consideration. Conscientious physicians and surgeons will accord it."

Freddy's Fear.

SINGULAR FIND.

German Silver Spoons Found in a Lump of Coal.

PADUCAH, Ky., Feb. 7.—Two spoons were found by Melville Sales and wife imbedded in some coal burning in their grate. Sales punched the fire and detected one spoon in a chunk of coal and quickly picked it out, and has exhibited the curiosity about the city. His wife became curious and punched the lump to pieces and found the second spoon. Both the spoons are German silver, and on the one exhibited is quite plainly to be seen "H. Sears & Co., German silver, 1860 or '60." The spoons show the effects of some wear. The coal from which the spoons were taken came from the mines at Cartersville, Ills.

FIENDISH RELATIVE.

POLENS His Brother and Sister and Witnesses Their Dying Struggles.

FAIRFIELD, Cal., Feb. 7.—Frank Belew, under arrest for the murder of his brother Louis and sister Susie in the little town of Dixon on Nov. 9 last, has confessed. He told how he placed rat poison in the teakettle used by his brother and sister, and when the news came to him that they were dying how he had gone to their home and witnessed the dying struggles of his sister without a pang of remorse.

PANIC AT A FUNERAL.

Steps Leading to an Auditorium Break Down.

LEXINGTON, Ky., Feb. 7.—Several thousand negroes congregated at the Auditorium yesterday where the funeral of the negro Baptist preacher, Sanford J. Howard, was to be preached. The wooden steps to the Auditorium, laden with three score women, broke down. Four women suffered broken legs and many others were more or less severely bruised. A panic ensued and the funeral was preached in a little church. During the panic the Broadway Protestant Episcopal church caught fire and half an hour later the Centenary Methodist church was on fire. Both fires were quickly extinguished.

Weather.

An Escaloped Fish.

An escaloped fish which Miss Parloa gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pound of cooked fish, free from bones and skin, a teaspoonful of salt, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1½ gills of milk (this is a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory.—New York Post.

Death of F. H. Clark.

We are called upon to announce the death of Frank A. Clark, which took place at the Central Insane Hospital at Indianapolis, at 11 o'clock Saturday night, February 5, 1898, with softening of the brain in the forty ninth year of his age. He was born at New Haven Ct., March 24, 1849. He came to Seymour in November 1874, and began working with the O. & M. and was a conductor from 1881, which position he continued to fill till 1895. November 25, 1879, he was united in marriage to Miss Ella Brown, daughter of D. H. Brown. In 1891 he moved to Washington, and in May, 1897, they removed to Seymour on account of him being attacked with his fatal trouble and was taken to a hospital at Cincinnati for treatment. Failing to find relief he came home. On January 3, 1898, he was taken to the Central Hospital at Indianapolis. There he failed to improve and gradually grew worse until death came to his relief. His brother-in-law, Emmons Brown, of Indianapolis took charge of the remains which he accompanied to this city and they were taken to the home of his father in law. After moving to Washington he opened a grocery store which he was unable to conduct on account of failing health. Mr. Clark was an honest and upright man, although not a church member he leaned toward the M. E. church. He leaves one brother, William Clark, of Washington, and his wife and one daughter, Miss Nellie, of Seymour, who have the profound sympathy of a large circle of friends. The funeral will take place tomorrow (Tuesday) afternoon, and will be in charge of the O. R. C. and and K. of P. of which he was a member. Religious services will be conducted by Rev. C. E. Asbury, of the M. E. church, of Washington, in obedience to the request of deceased, assisted by Rev. J. M. Baxter. Friends of the family cordially invited. Burial in Riverview cemetery.

TERMS OF TRUSTEES.

The Law of 1897 Called in Question on Constitutional Grounds.

Throughout the state the question has arisen, "shall township trustees and assessors be elected at the next general election?"

This question is confronting the political organizations of the state and is being carefully looked into. It seems quite probable that the law passed by the last general assembly extending the terms of office of township trustees and assessors until after the general election in 1900 will be contested in the courts on constitutional grounds.

The constitution provides that the general assembly can not create an office the term of which shall be longer than four years, and many think that the act of 1897 conflicts with this provision of the constitution.

The 1800 trustees of the state will endeavor to have the law sustained.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

CHURCH NOTES.

The house was crowded at the Christian church last night. Four additions interest is growing.

Presiding Elder E. A. Campbell conducted quarterly meeting in Brown county yesterday and today.

Y. M. W. C. A. held their regular session yesterday afternoon at the Christian church. Prof. Sanders delivered a most interesting address. Meeting at the same hour next Sunday afternoon. Come all.

The committee on program for the next district ministerial meeting to be held at North Vernon tomorrow consists of R. V. J. M. Baxter, J. W. Johnson, W. B. Grimes and Presiding Elder E. A. Campbell. The meeting will be an important one.

Yesterday was a grand day at the Methodist church. Evangelist Read conducted five services. His sermon in the morning on "The Best Thing in the World," was a masterly effort. His entire congregation was moved with deep feeling and an after service followed in which the spirit's power was manifested in many hearts. The night congregation was immense. Hundreds were unable to gain admission. Seven were at the altar for prayers and confessed Christ. Thirty-one children in the Sunday school confessed Christ. Come every day and night this week.

"I always let a cold go as it comes one says; which means that he overworks the system in getting rid of a cold rather than assist it by using Dr. Bull's Cough Syrup.

In a recent letter from Washington, D. C., to an old friend, Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing) I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything." For sale by C. W. Milhous.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Death of F. H. Clark.

We are called upon to announce the death of Frank A. Clark, which took place at the Central Insane Hospital at Indianapolis, at 11 o'clock Saturday night, February 5, 1898, with softening of the brain in the forty ninth year of his age. He was born at New Haven Ct., March 24, 1849. He came to Seymour in November 1874, and began working with the O. & M. and was a conductor from 1881, which position he continued to fill till 1895. November 25, 1879, he was united in marriage to Miss Ella Brown, daughter of D. H. Brown. In 1891 he moved to Washington, and in May, 1897, they removed to Seymour on account of him being attacked with his fatal trouble and was taken to a hospital at Cincinnati for treatment. Failing to find relief he came home. On January 3, 1898, he was taken to the Central Hospital at Indianapolis. There he failed to improve and gradually grew worse until death came to his relief. His brother-in-law, Emmons Brown, of Indianapolis took charge of the remains which he accompanied to this city and they were taken to the home of his father in law. After moving to Washington he opened a grocery store which he was unable to conduct on account of failing health. Mr. Clark was an honest and upright man, although not a church member he leaned toward the M. E. church. He leaves one brother, William Clark, of Washington, and his wife and one daughter, Miss Nellie, of Seymour, who have the profound sympathy of a large circle of friends. The funeral will take place tomorrow (Tuesday) afternoon, and will be in charge of the O. R. C. and and K. of P. of which he was a member. Religious services will be conducted by Rev. C. E. Asbury, of the M. E. church, of Washington, in obedience to the request of deceased, assisted by Rev. J. M. Baxter. Friends of the family cordially invited. Burial in Riverview cemetery.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is electric bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite aids digestion and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it Sold for 50c or \$1.00 per bottle at W. F. Peter Drug Peter.

MARRIED.

Mr. Jacob Brooker and Miss Mary Carr, both esteemed young people of Hamilton township, were united in marriage at 2 o'clock Sunday afternoon at the home of the bride's father, Henry Carr, of near Cortland. May their married life be pleasant.

TERMS OF TRUSTEES.

The Law of 1897 Called in Question on Constitutional Grounds.

Throughout the state the question has arisen, "shall township trustees and assessors be elected at the next general election."

This question is confronting the political organizations of the state and is being carefully looked into. It seems quite probable that the law passed by the last general assembly extending the terms of office of township trustees and assessors until after the general election in 1900 will be contested in the courts on constitutional grounds.

The constitution provides that the general assembly can not create an office the term of which shall be longer than four years, and many think that the act of 1897 conflicts with this provision of the constitution.

The 1800 trustees of the state will endeavor to have the law sustained.

Card of Thanks.

To those who at the sacrifice of their own interests, and at the risk of their lives, so bravely and so nobly assisted in recovering the body of the late T. S. Cross, of Houston, Ind., who was drowned in Orange County, Ind., on Jan. 19, 1898. We, his wife, his mother, his brothers and sisters, wish publicly to express our high appreciation of the service rendered; and to those, who offered so many words of consolation and sympathy in our bereavement, and who so kindly assisted in the last rites, we desire to express our heartfelt and grateful thanks. As by your sympathy and kind offices you have lightened our burdens and enabled us to bear our great sorrow with some degree of fortitude. CHURCH NOTES.

The house was crowded at the Christian church last night. Four additions interest is growing.

Presiding Elder E. A. Campbell conducted quarterly meeting in Brown county yesterday and today.

Y. M. W. C. A. held their regular session yesterday afternoon at the Christian church. Prof. Sanders delivered a most interesting address. Meeting at the same hour next Sunday afternoon. Come all.

The committee on program for the next district ministerial meeting to be held at North Vernon tomorrow consists of Rev. J. M. Baxter, J. W. Johnson, W. B. Grimes and Presiding Elder E. A. Campbell. The meeting will be an important one.

Yesterday was a grand day at the Methodist church. Evangelist Read conducted five services. His sermon in the morning on "The Best Thing in the World," was a masterly effort. His entire congregation was moved with deep feeling and an after service followed in which the spirit's power was manifested in many hearts. The night congregation was immense. Hundreds were unable to gain admission. Seven were at the altar for prayers and confessed Christ. Thirty-one children in the Sunday school confessed Christ. Come every day and night this week.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

"We know of no review published, in this country or in Europe, which combines so successfully as the AMERICAN MONTHLY the alertness, timeliness, and energy of journalism with the sound judgment, carefully weighed opinion, exact knowledge, and well-chosen English of the purely literary periodical."—The Outlook.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

To the Klondike. Valuable Information for Persons Going to the Gold Fields.

Persons who expect to try their luck in the gold fields of Alaska will find it profitable to call on ticket agents of the Pennsylvania Lines and get posted on rates, routes and other preliminaries. This information will be furnished without charge, and any required aid in shaping details will be cheerfully extended. If not convenient to apply to local agent of the Pennsylvania Lines, send your name and address, with date upon which you intend to start, the probable number in the party, and a request for advice about the fare, time of trains and other particulars, to the following representative of the passenger department and a prompt reply will be made. W. W. Richardson, D. P. Agt., Indianapolis, Ind.

Frank Sherwood was down town today the first time since he had his tussle with cholera morbus. He says he drove thirty miles after he was taken and never came so near dying in his life. After this when he goes out in the country he will take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him.—Missouri Valley (Iowa) Times. For sale by C. W. Milhous.

BROWNSTOWN GRAVEL ROADS.

A Taxpayer of that Township Speaks Plainly About them.

A resident of Brownstown township writes the REPUBLICAN that in all probability the gravel road election down there Saturday will result favorable to the construction of the roads. This he says will be done by the vote of the town Brownstown against the thoughtful taxpayers in the township. The residents of the town, he says, "think that these roads must be built to save the county seat, while two-thirds of the farmers consider the whole matter as a scheme and as a costly one to the and are therefore openly declaring for relocation, as the safest way to lessen their burden some taxes which are now \$2.36 with another \$21,000 about to be voted on them."

Serious Accident.

Edward Manning, while engaged in hauling logs, at the Southern Indiana depot here Friday had his shoulder blade broken by one of the logs rolling on him. His injury is severe but he will probably get along all right.

Rosabel Morrison as the Spanish Gypsy—"Carmen."

The name of Rosabel Morrison is something to conjure with, as she is the daughter of Lewis Morrison of "Faust" fame, and has earned her right to appear in a stellar role by years of association with the traditions of the stage. Aside from her historic ability, nature has been more than kind to her from a physical standpoint. She has youth and beauty, which are most excellent requisites for those who sue for public favor. Miss Morrison will appear at the Opera House Tuesday Feb. 8, in the romantic play of "Carmen." The play will be presented on the same elaborate scale of scenic prodigality that has always been a feature of a "Morrison" production.

A GEORGIA HEN COOP.

It Was Sure Proof Against the Inroads of Outsiders.

"There isn't a more faithful being on earth," said a Georgia business man to a reporter, "than one of our Georgia dorkies. Neither is there one more superstitious, nor yet again is there one who loves better the products of the hen coop. And Cartersville isn't any different from any one of a hundred southern towns. When I was down there some time ago, a customer of mine who had a fancy for chickens and who had always had more or less trouble in maintaining ownership of them told me he had a remedy and asked me to go around with him and see it. I wanted him to tell me what it was, but he insisted on my seeing it first, so I went along with him, and in a few minutes was standing in his back yard before what was to me the oddest chicken coop I ever saw. It was constructed of large timbers and there were a dozen places in its walls where a hand could be run in and everything cleaned out within reach. Then there was no fastening on the door, nor was there any kind of protection to the fowls. I couldn't understand how such an inviting snap could be of any use to the owner and said as much.

"The charm is in the timber," said he.

"No," said I.

"Fact, just the same," said he. "You don't see it on the outside and you don't know it, but the dorkies around here do, and they won't come within 100 yards of that coop if they can help it. 'Cause why? It is built of the timbers of a gallows on which a man was hung about three months ago in another county. It cost me something extra to get it, but it has more than paid for itself since I have had it, and I am in the market now to buy all the secondhand scaffolds in Georgia. If you run across a sheriff any place with one for sale, let me know by next mail, won't you, please?"

"It was a true bill," concluded the traveling man, "for I saw a dorky tried on it, and he refused a big silver dollar to go down to the coop to get a chicken for breakfast."—Washington Star.

TEAS AND TEAS.

Things Once Used or Now Used as Substitutes For the Chinese Herb.

Of course every one knows that we drink a good deal that isn't tea when we drink a cup of tea. We drink—or are supposed to drink—some tea, some lead and some straw. But there are several "teas" that the drinkers know are not made of tea leaves and yet are not adulterated.

In Peru they drink mate, a tea made from the Ilex paraguensis, a species of holly. This is the only mate tea, but there is a Brazilian tea, gorgonha, called mate there; another tea used in Austria, called Brazilian tea, and several other so called mate teas are made from different varieties of the Ilex. In Labrador they make a tea from two species of ledum. Oswego tea was made from the scarlet muscade, and mountain tea from the dwarf evergreen, Gaultheria procumbens. Then clover tea and tansy tea and catnip tea and mint tea are used, though not as beverages. In Sumatra they use coffee leaves to make tea out of, and the beverage is said to be very refreshing. In Mauritius the leaves of an orchid, Angraecum fragrans, are used. The Tonquinese have teas of their own, made of leaves, berries, barks and woods. The Abyssinians make tea out of the leaves of the Catha edulis. When a sentinel can't leave his post to get a cup of tea, he can chew a leaf or two of this plant, and he won't feel like going to sleep all night. In Tasmania there are said to be more than 200 substitutes for tea; in England they used to make a tea of sage, betony or rosemary and of raspberry leaves; in France they use black currant leaves and borage to make tea, and a century or so ago they gathered in English gardens and fields ash, elder and sloe leaves, and the leaves of white-thorn and blackthorn, out of which to make tea. So it is evident that there are teas and teas.—New York Sun.

Americian Brevity.

A rich American, according to the following anecdote, related in Good Words by the Rev. Donald MacLeod, D. D., presented himself one day at the studio of Sir John Millais, and, without preamble, began at once to speak.

"Sir," he said, "I wish to take a present back to my wife. She says she would like to have my portrait painted by the very best artist in the country. I have been told that you are the man. When can I have a sitting?"

"I am at present very busy," said Millais.

"So am I," was the reply.

"But I am a very expensive artist."

"How much do you charge?"

A large price was named.

"Shall I give you a check now?"

"Not at all," said Millais. "I merely mentioned it to prevent misunderstandings."

"How many sittings do you require?"

"Five or six at the least."

"If you can do it in fewer, so much the better, for I am a very busy man and my time is valuable."

Millais enjoyed the manner in which his own plea of being busy had been met and agreed to paint him.
